CP refers to Commercial Paper.

*Securities not included in the high yield category (e.g., convertible bonds, floating rate notes, preferred stocks) may also be rated below investment grade.

Investment grade/non-investment grade (high yield) categories and credit ratings breakdowns are based on ratings from Standard and Poor's, which is a private independent rating service that assigns grades to bonds to represent their credit quality. The issues are evaluated based on such factors as the bond issuer's financial strength and its ability to pay a bond's principal and interest in a timely fashion. Standard and Poor's ratings are expressed as letters ranging from 'AAA', which is the highest grade, to 'D', which is the lowest grade. A rating of BBB- or higher is considered investment grade and a rating below BBB- is considered non-investment grade.

The Osterweis Growth & Income Fund's holdings may change at any time due to ongoing portfolio management. References to specific investments should not be construed as a recommendation to buy or sell the securities by the Fund or Osterweis Capital Management. Current and future holdings are subject to risk.

The Osterweis Funds are available by prospectus only. The Funds' investment objectives, risks, charges and expenses must be considered carefully before investing. The summary and statutory prospectuses contain this and other important information about the Funds. You may obtain a summary or statutory prospectus by calling toll free at (866) 236-0050, or by visiting www.osterweis.com/statpro. Please read the prospectus carefully before investing to ensure the Fund is appropriate for your goals and risk tolerance.

Mutual fund investing involves risk. Principal loss is possible. The Osterweis Growth & Income Fund may invest in small- and mid-capitalization companies, which tend to have limited liquidity and greater price volatility than large-capitalization companies. The Fund may invest in foreign and emerging market securities, which involve greater volatility and political, economic and currency risks and differences in accounting methods. These risks may increase for emerging markets. The Fund may invest in Master Limited Partnerships, which involve risk related to energy prices, demand and changes in tax code. The Fund may invest in debt securities that are un-rated or rated below investment grade. Lower-rated securities may present an increased possibility of default, price volatility or illiquidity compared to higher-rated securities. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. From time to time, the Fund may have concentrated positions in one or more sectors subjecting the Fund to sector emphasis risk. Investments in preferred securities typically have an inverse relationship with changes in the prevailing interest rate. Investments in asset-backed and mortgage-backed securities include additional risks that investors should be aware of such as credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments.

Osterweis Capital Management is the adviser to the Osterweis Funds, which are distributed by Quasar Distributors, LLC. [OSTE-20230614-0909]
